Projects

- Aug, 2025**
Guru Cashemere & Blends
<https://gurupashmina.com/>
Contributed as a Frontend Developer using React, building a responsive website for a pashmina business along with an admin dashboard for efficient product management, enhancing online presence and accessibility.
- Aug, 2025**
Contact Service Web App
<https://diwasbk.onrender.com/>
Developed a full-stack contact service using React for the frontend and Node.js, Express, and Nodemailer for the backend. Implemented secure APIs with environment variables and CORS,

added automated email responses, containerized the app with Docker, and successfully deployed it on Render with a live demo.

Aug, 2025

Blog App API

🔗 <https://github.com/diwasbk/Blog-App-Backend>

Built a RESTful backend using Node.js, Express, and MongoDB (Mongoose) with secure authentication via JWT and password hashing using bcrypt. Implemented user signup/login, post creation, update, delete, likes, and profile management with relationships between users and posts. Secured routes with middleware and tested APIs using Postman.

Sep, 2025

LuminaX – AI Chat Application

🔗 <https://luminax-ai-diwas.onrender.com/>

Built a modern AI chat interface using React, TailwindCSS, and Node.js with Google Gemini API. Features include real-time messaging, Markdown rendering, copy-to-clipboard, typing animation, and a secure Express backend for generating AI responses.

Dec, 2025

Skill Connect

🔗 <https://github.com/diwasbk/SkillConnect>

Developed a Node.js/Express API for skill-sharing, featuring JWT authentication, user profiles, ticket management, reviews, and file uploads.

Nov, 2025

Open User Profile

🔗 <https://openuserprofile.onrender.com/>

Built a React frontend and Express.js API for managing user profiles with full CRUD functionality. Features include adding, viewing, updating, and deleting users, a responsive UI, and toast notifications via react-toastify.

Feb, 2026

MediConnect

🔗 <https://github.com/diwasbk/MediConnect>

MediConnect is a full-stack healthcare management platform that connects patients and hospitals, enabling secure appointment booking, medical record management, and healthcare provider reviews.
